

Our Peace Garden is currently registered with the “Million Pollinator Garden Challenge”.

<http://millionpollinatorgardens.org/>

Did you know that Pollinators are responsible for **1 out of 3 bites** of food we take each day? More nectar and pollen sources provided by more flowering plants and trees will help improve the overall health and numbers of declining pollinators. Increasing the number of pollinator-friendly gardens and landscapes will help revive the health of bees, butterflies, birds, bats and other pollinators across the country. How many pollinators do you see in the Peace Garden today?

# MEMORIAL PEACE GARDEN

Dedicated to and inspired by:  
Sophie and Madigan Lillard

Located at 7215 Corporate Court Drive  
Frederick, Maryland 21703

Girl Scouts troop #81151 and parent volunteers pose for a picture in the Peace Garden.

## Dedication

The Peace Garden at Carroll Creek Montessori School (CCM) was created in 2013 to honor the Lillard sisters who died in a house fire. Sophie was a first grader at the school and Madigan would have attended the following year. The peace garden evolved through the years and was revitalized and rededicated with the help of Master Gardener, Analiese Kennedy and the Junior Girl Scouts of Troop 81151 as their bronze award in 2018.

## Objectives

Many parts of the garden honor the girls' memory with elements of nature that they loved interspersed throughout including fairy houses (representing each of the Lillard children), butterflies on the bench and plants that they loved. In the redesign, Analiese incorporated new elements with the idea to:

1. *Provide a symbol of hope for the future*
2. *Promote respect and peace at our school*
3. *Encourage a curriculum of cross-cultural understanding, environmental studies, and alternative conflict resolution.*

Blessing of the Peace Garden at the rededication ceremony in June 2018.
